

ORGANIC YOUNG GREEN JACKFRUIT

Organic young green jackfruit: your versatile plant-based powerhouse.

PRODUCT DETAILS:

Resembling tender meat in texture, this is a versatile and ethical alternative to red meat. This offers a mild, neutral taste that absorbs flavours effortlessly. Whether it is shredded in tacos, simmered in stews, mixed in salads or grilled in sandwiches, young jackfruit’s natural fibres create a satisfying, meaty texture. It is not just a delicious choice; it is a sustainable one, reducing the environmental impact of meat consumption while delivering a wholesome, cruelty-free source of plant-based nutrients.
