

COCONUT WATER

Coconut water is a natural isotonic beverage. It helps replace fluids and salts that are lost during exercise. Our 100% coconut water is from young green coconuts and never from concentrate.

PRODUCT DETAILS:

Naturally refreshing, coconut water has a sweet, nutty taste. It contains easily digested carbohydrates in the form of sugar and electrolytes. Not to be confused with high-fat coconut milk or oil, coconut water is a clear liquid in the fruit's center that is tapped from young, green coconuts.

PRODUCT SPECIFIC CLAIMS:

- Not from concentrate
- No added sugars
- No additives
- High in potassium
